All mutual funds, regardless of performance, must distribute to shareholders any net realized gains from the sale of individual securities in their portfolios. Distributions are made to those who are registered shareholders of the fund on the record date. Distributions are paid on the pay date. All dates and distributions are subject to board approval. Distributions will vary depending on the funds' income and any profits realized from the sale of securities in the funds' portfolio. Past distributions are not indicative of future trends. A fund's per share capital gain distributions are the same for each share class offered.

Capital gains are payable to the shareholders of the "Record Date" with the distribution occurring on the "Payable Date". The distributions do not include ordinary income distributions the fund may be making. Shareholders are strongly advised to consult their own tax advisors with respect to the tax consequences of their investments in the funds.

To estimate your distribution for a fund on this list, multiply the number of shares you own by the fund's total per-share capital gains estimates.

Tax adjustments for wash sale loss deferrals and reversals, paydown reclassification, prior year Section 1256 mark-to-market reversals, and capital loss carry forwards are included in these estimates as appropriate. Other tax adjustments such as, but not limited to, REITs, partnerships, PFICs, are not included in these estimates.

Final amounts to distribute are calculated as of October 31, 2019. As such the amounts shown here are subject to change.
