

Investment Philosophy

We believe a strategy investing in well-managed companies with durable business models, good growth prospects, and attractive valuations, may achieve above-benchmark long-term returns, consistent with reasonable risk to principal.

Investment Strategy

- Applies multi-factor quantitative screens to identify and rank stocks based on indicators of quality, valuation and growth.
- Conducts fundamental bottom-up research to evaluate business models, management, earnings trends, and other catalysts for price appreciation.
- Diversifies across sectors, industries and individual securities, with a focus on multi-year investment time horizon.
- Applies a rigorous, ongoing sell discipline.

Product Highlights

- Integrates quantitative and fundamental analysis, with a proprietary quantitative model.
- Disciplined, stringent risk controls.
