

Investment Philosophy

We believe a portfolio of select large cap stocks may achieve above-benchmark long-term performance through capital appreciation, and by seeking to limit downside risk.

Investment Strategy

- Invests in large cap companies we believe have more favorable ratings on environmental issues.
- No exposure to energy and utilities sectors.
- Uses proprietary, multi-factor, sector-specific models to rank stocks in each sector.
- Stock specific weight limits.
- Optimizes the portfolio to provide broad diversification across sectors, industries and individual companies, while controlling turnover.
- Uses proprietary risk screens seeking to eliminate stocks we believe are likely to underperform.

Product Highlights

- Quantitatively-based investment process with stringent risk controls.
- Integrates fundamental factors into proprietary quantitative models.
- Focuses on underperformance risk as much as outperformance opportunity.

Strategy Facts

Universe	Russell 1000, S&P 500, and companies over \$3 billion market capitalization

Glenmede Investment Management, LP claims compliance with the Global Investment Performance Standards (GIPS®).

GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

Glenmede Investment Management, LP, a registered Investment Advisor, is an affiliate of the Glenmede Trust Company, NA (GTC). The "Firm" is defined as all investment advisory accounts managed by Glenmede Investment Management LP. Effective January 1, 2007, the Investment Product Management Group of GTC became Glenmede Investment Management, LP. All performance prior to January 1, 2007, shown here as the performance of GIM, was previously reported as the performance of the Investment Product Management Group of the Glenmede Trust Company.

All of the composites' valuations and returns are computed and stated in U.S. Dollars. Additional information regarding the Company's policies for valuing portfolios, calculating performance and preparing compliant presentations, is available upon request. A GIPS® compliant presentation, as well as a complete list of firm composites and performance, can be requested from GIM Client Service at 215.419.6662. Please see the GIPS® presentation for further explanation.

The Quantitative U.S. Large Cap Low Carbon Equity Composite objective is to provide maximum long-term return with reasonable risk to principle, by investing in domestic stocks of the Russell 1000 and Standard & Poor's 500 universes and in large cap ADRs excluding those in the Energy or Utilities sectors. Prior to 03/31/2022, this composite was known as the Quantitative U.S. Large Cap Carbon Free Composite.

The Russell 1000 Index is an unmanaged, market value weighted index, which measures performance of the largest 1,000 companies in the market. One cannot invest directly in an index. The comparative benchmark is a GIM calculated Customized Carbon Free Index. Returns are calculated by GIM monthly using the Russell 1000 constituents excluding securities in the Energy and Utilities sectors.
