

Investment Overview

Disciplined investment process that seeks to invest in US large cap values companies that have an attractive combination of valuation, fundamental, earnings and market technical characteristics.

Investment Philosophy

We abide by a disciplined approach anchored in comprehensive assessments of valuation, fundamental, and market technical factors.

We believe these characteristics can support above market returns over time. In our view, these “ideal” stock characteristics should be intuitive considerations for all investors.

Focusing on these attributes, rather than chasing short term price movements in the stock market, our process strives to produce differentiated sources of return over the long term.

A GIPS® compliant presentation, as well as a complete list of firm composites and performance, can be requested from GIM Client Service at gimclientservices@glenmede.com. Please see the GIPS® presentation for further explanation.

The Disciplined U.S. Value Equity Composite objective is to provide maximum long-term total return consistent with reasonable risk to principal by investing, under normal market circumstances, at least 80% of the value of its net assets (including borrowings for investment purposes) in common stocks of the Russell 1000 Value universe. Prior to 12/31/2024, the strategy was known as Glenmede Quantitative U.S. Large Cap Value Equity.

The Russell 1000 Value Index is an unmanaged, market value weighted index, which measures the performance of those 1,000 largest companies in the Russell 3000 Index with lower price-to-book ratios and lower forecasted growth values. One cannot invest directly in an index.
