The Small Cap Equity Composite objective is to provide maximum long-term total return consistent with reasonable risk to principal, by investing primarily in common stocks with market capitalization at the time of purchase less than the maximum capitalization permitted for a stock in the Russell 2000 Index.

The Russell 2000 Index is an unmanaged, market value weighted index, which measures performance of the 2,000 companies that are between the 1,000th and 3,000th largest in the market. One cannot invest directly in an index.
